8 August 2024

Dear Stakeholder

RE: SACPCMP REGISTERED PERSONS UPDATE – FREE WORKSHOP

As per our previous correspondences, Eskom and POLASA have been collaboratively engaging the SACPCMP regarding the registration of process. As part of these engagements, we have requested the SACPCMP Council to consider an earlier reregistration date to allow for the successful completion of the reregistration process. This request will be presented at the next Council sitting scheduled for the end of August 2024. We have made a strong case and are thus positive of a favourable outcome. We will keep you abreast of developments in this regard.

In the interim, it is crucial that affected registered persons complete the requirements that must be submitted along with the reregistration application. For ease of reference, we attach a document detailing the process and referencing the supporting evidence (page 8) and the relevant annexures required. As you would see, your submission must include evidence of a 3-month mentorship report. We strongly advise that you start immediately to gather this evidence.

To assist you with this process, POLASA invites affected persons to join a free training workshop in which we will assist you with the process by discussing the requirements and provide further clarification. This session will be held on:

Date: **Tuesday, 20th August 2024**
Time: **9h00 to 11h00.**
Platform: **Microsoft Teams**

If you would like to attend this free session, kindly email [Enrica Furlan](mailto:Enrica.Furlan@siyazama-training.co.za) on enrica@siyazama-training.co.za. The Teams link will then be sent to you.

Please share this correspondence as widely as possible so that we may assist as many as possible.

I thank you.

Kind regards

SAGREN V MOODLEY
POLASA Board Chairperson
